### \* Notes on 10-Step Class (Wednesday 6.35pm)

This class is for BEGINNERS who would like to learn the basics of Tai Chi.

The Yang 10-Step Form is the shortest set of movements, but incorporates all the major principles of Tai Chi and is an excellent set of movements to discover what Tai Chi is all about.

There is some Qigong as a warm-up also.

The class is taken by Paul Moore who is an experienced teacher.

## \* Notes on the 42 Taiji Class (Tuesday 7.05pm)

This class is a good one to join at any time.

Although we usually go through a section of the Form, we always start working on one movement or another in detail, and so if you are trying it out, you will find that you can fit in.

The Form is predominantly Yang style, but it also combines a mixture of different styles of Tai Chi and is a good introduction to other types of Tai Chi.

## \* Notes on the Sun Style Tai Chi Class (Friday 12.05pm)

This is a 'modular' form consisting of various short sections, which, apart from the opening can be performed in almost any order. This can be performed by all levels from complete beginner to advanced, and is also particularly good if you have knee problems (e.g. arthritis).

# \* Notes on 2-Person Classes (Tuesday 8.05pm/Saturdays)

Both the <u>Tuesday 8.05pm class in Euston</u>, and the <u>Saturday courses in Westminster</u> will focus on:

- Learning how to relax
- The use of the movements in Tai Chi Form (applications)
- Applying the movements so that you maintain your own integrity (centre of balance)
- Finding & working from the centre/core/Dantian
- Developing the sense of 'feel' when working with someone else
- Connecting your centre to your hands
- Turning a partner's energy around so as to unbalance him/her
- We will also work on a 2-Person Tai Chi Form in order to understand applications of moves

#### Posture, Balance, and Intention.

By far the most important part of these classes is developing the ability to sense and be aware not only of one's own posture, balance, and intention, but also that of another person.

#### Relaxation.

Many of the exercises are ultimately about the ability to act from a very relaxed body and mind, so that (for example) if someone pushes towards you, you don't 'lock up' (the instinctive reaction), but instead you sense the push, and divert it. Initially it is this 'locking up' (which in effect makes you unable to move), that we are working on undoing. This is about getting more control of your sympathetic nervous system (fight & flight), the 'stress' system, so that in difficult situations, you 'roll with the punches' better.
